
Research-based, classroom-tested Teaches children skills for long-term success Fosters social skills, proactivity, perseverance, and more The 6 Success Factors for Children with Learning Disabilities Ready-to-Use Activities to Help Kids with Learning Disabilities Succeed in School and in Life From the acclaimed Frostig Center comes a valuable resource for teachers and parents of children with learning disabilities. Based on a 20-year study, Frostig research has revealed six attributes that lead to long-term success for individuals with LD. This book helps teachers identify and encourage the growth of characteristics that will help students thrive in the classroom, at home, and in social situations. The book offers an array of classroom-tested, engaging activities—complete with reproducible, worksheets—that have been proven to foster these "success attributes" in children. The six attributes identified by the Frostig Center are: Self-awareness Proactivity Perseverance Goal setting Use of social support systems Emotional coping strategies Each of the book's activities contains a lesson plan with goals, materials, and procedures, including teaching instructions and reproducible student worksheets. The book is designed to be both flexible and easy-to-use. All activities can be modified to accommodate a variety of learners. Praise for The 6 Success Factors for Children with Learning Disabilities: "Provides educators, parents, and other caregivers with pragmatic and measurable strategies to foster maturity and independence...The activities demonstrate that success is not amorphous and unattainable—rather, it can be achieved by adopting an established set of behaviors, attitudes, and characteristics. [This book] will be enormously useful as you prepare your students for their journey to adulthood."—From the foreword by Richard D. Lavoie, bestselling author. It's So Much Work to Be Your Friend and The Motivation Breakthrough A blueprint for how parents can stop worrying about their children's future and start helping them prepare for it, from the cofounder and CEO of one of America's most innovative public-school networks "A treasure trove of deeply practical wisdom that accords with everything I know about how children thrive."—Angela Duckworth, New York Times bestselling author of Grit in 2003, Diane Taverner cofounded the first school in what would soon become one of America's most innovative public-school networks. Summit Public Schools has since won national recognition for its exceptional outcomes: Ninety-nine percent of students are accepted to a four-year college, and they graduate from college at twice the national average. But in a radical departure from the environments created by the college admissions arms race, Summit students aren't focused on competing with their classmates for rankings or test scores. Instead, students spend their days solving real-world problems and developing the skills of self-direction, collaboration, and reflection, all of which prepare them to succeed in college, thrive in today's workplace, and lead a secure and fulfilled life. Through personal stories and hard-earned lessons from Summit's exceptional team of educators and diverse students, Taverner shares the learning philosophies underlying the Summit model and offers a blueprint for any parent who wants to stop worrying about their children's future—and start helping them prepare for it. At a time when many students are struggling to regain educational and developmental ground lost to the disruptions of the pandemic, Prepared is more urgent and necessary than ever. Psychologist Madeline Levine, author of the New York Times bestseller The Price of Privilege, brings together cutting-edge research and thirty years of clinical experience to explode once and for all the myth that good grades, high test scores, and college acceptances should define the parenting endgame. Parents, educators, and the media wring their hands about the plight of America's children and teens—soaring rates of emotional problems, limited coping skills, disengagement from learning and yet there are ways to reverse these disheartening trends. Teach Your Children Well acknowledges that every parent wants successful children. However, until we are clearer about our core values and the parenting choices that are most likely to lead to authentic, and not superficial, success, we will continue to raise exhausted, externally driven, impaired children who believe they are only as good as their last performance. Real success is always an inside job, argues Levine, and is measured not by today's report card but by the people our children become fifteen or twenty years down the line. Refusing to be diverted by manufactured controversies such as "tiger moms versus coddling moms," Levine confronts the real issues behind the way we push some of our kids to the breaking point while dismissing the talents and interests of many others. She shows us how to shift our focus from the excesses of hyperparenting and the unhealthy reliance on our children for status and meaning to a parenting style that concentrates on both enabling academic success as well as developing a sense of purpose, well-being, connection, and meaning in our children's lives. Teach Your Children Well is a call to action. And while it takes courage to make the changes we believe in, the time has come, says Levine, to return our overwrought families to a healthier and saner version of themselves. You want only the best for your kids. And you want them to be successful. Sure, there's nothing wrong with that. But what if there was something more? Could your definition of success be leaving out the most important part? What about greatness? Where does it fit in? "If you aim your children at anything less than greatness, you'll set them up to miss the whole point of their lives," says author Tim Kimmel. In Raising Kids for True Greatness, Kimmel turns the definition of success on its head and guides you in preparing your child for a life that will easily eclipse the goals of those who are merely successful. Learn how to prepare your kids for rich lives of true greatness by helping them find answers to life’s three most crucial, life-changing questions regarding their mission, mate, and master: What are they going to do with their potential? Who will they spend their lives with? Who will they live it for? The latest research shows that children can be taught—at very early ages—the tools they need to become successful and connected to others. This new book offers parents and teachers the information they need to teach children the most effective ways to engage peers and make social interactions easier and more meaningful. Your Successful Preschooler: Shows how facilitated play can become an opportunity to improve your child’s emotional connections with peers Teachers parents and educators how to foster growth in vocabulary and language during play, key ingredients to academic success Presents dozens of anecdotes with dialogues parents can use to teach children how to better relate to their peers Using the methods outlined in the book, parents and teachers can support activities that lead to a lifetime of social success and likeability that are crucial for every child’s emotional stability. Clinical psychologist Catherine Steiner-Adair takes an in-depth look at how the Internet and the digital revolution are profoundly changing childhood and family dynamics, and offers solutions parents can use to successfully shepherd their children through the technological wilderness. As the focus of the family has turned to the glow of the screen—children constantly texting their friends or going online to do homework; parents working online around the clock—everyday life is undergoing a massive transformation. Easy access to the Internet and social media has erased the boundaries that protect children from damaging exposure to excessive marketing and the unsavory aspects of adult culture. Parents often feel they are losing a meaningful connection with their children. Children are feeling lonely and alienated. The traditional work ethic and the digital work ethic seem to favor what is doing technology’s gain? As renowned clinical psychologist Catherine Steiner-Adair explains, families are in crisis as they face this issue, and even more so than they realize. Not only do chronic tech distractions have deep and lasting effects but children also desperately need parents to provide what tech cannot: close, significant interactions with the adults in their lives. Drawing on real-life stories from her clinical work with children and parents and her consulting work with educators and experts across the country, Steiner-Adair offers insights and advice that can help parents achieve greater understanding, authority, and confidence as they engage with the tech revolution unfolding in their homes. What are the best practices for the Web age? How can parents help children avoid the perils of the digital world while leveraging its benefits? How can tech be harnessed to help struggling in school and what can be done at home and at school to help them succeed? This practical resource for parents and teachers explains how to understand a child’s complete learning profile—an inventory of his or her unique strengths and weaknesses—and provides helpful strategies that can be used at school and at home to get the child on a path to success. The book walks readers through the process of gathering clues about the child’s learning style and provides guidelines for selecting the most appropriate learning strategies that will help spell success in school and life. Pohlman shows how parents and teachers can collaborate to help kids become successful learners, and also guides readers through the process of getting an educational assessment, for those students with particularly challenging issues. Helps readers understand what’s going on when a child is struggling in school. Explains what to look for at home and at school to gather “clues” to understanding a child’s learning profile. Shows how parents and teachers can collaborate to help a child or adolescent succeed at school. Includes guidelines on obtaining educational assessments. Pohlman, from the acclaimed All Kinds of Minds Institute, has conducted or supervised thousands of assessments of struggling learners. He combines his knowledge of passion and perseverance, has more of an influence on success than cognitive ability, and parents want nothing more than to raise happy, successful children. Raising Children With Grit: Parenting Passionate, Persistent, and Successful Kids provides the strategies that parents need to teach, motivate, and inspire children to pursue their passions with grit—and succeed. And by focusing on self-discipline, parenting strategies, and personality traits, parents can cultivate perseverance in their children. By coupling that with an emphasis on curiosity and interest-building activities, parents can help their children define their passions. Additionally, this book offers tips for parents about working with school personnel, how to model grit in their own lives, and how social factors can influence the development of grit. Every teacher knows them: bright students who face learning difficulties that interfere with their ability to shine at school. 101 School Success Tools for Smart Kids With Learning Difficulties is a comprehensive resource that will help educators recognize and nurture the potential in these students, providing strategies to empower smart kids with learning challenges to become successful, confident, and independent learners. In this book, teachers will find essential information to help them gain a better understanding of learning and teaching strategies that work with this diverse group of learners. In addition, student scenarios bring these ideas to life, and practical tools support teachers’ planning and implementation of best practices within the classroom. Written for educators, but also useful as a guide for parents, the book provides ways of revealing and developing a child’s strengths. By combining their knowledge and expertise with the tools in this book, teachers can create a dynamic learning environment in which their students will thrive!
result of TRICK, Woj's secret to raising successful people: Trust, Respect, Independence, Collaboration, and Kindness. Simple lessons, but the results are radical. Wojcicki's methods are the opposite of helicopter parenting. As we face an epidemic of parental anxiety, Woj is here to say: relax. Talk to infants as if they are adults. Allow teenagers to pick projects that relate to the real world and their own passions, and let them figure out how to complete them. Above all, let your child lead. How to Raise Successful People offers essential lessons for raising, educating, and managing people to their highest potential. Change your parenting, change the world. New York Times Bestseller "Julie Lythcott-Haims is a national treasure. . . . A must-read for every parent who senses that there is a healthier and saner way to raise our children." —Madeline Levine, author of the New York Times bestsellers How to Raise Successful Children and Teaching Our Children Well. "For parents who want to foster hearty self-reliance instead of hollow self-esteem, How to Raise an Adult is the right book at the right time." —Daniel H. Pink, author of the New York Times bestsellers Drive and A Whole New Mind

School Success for Kids With Emotional and Behavioral Disorders gives parents and teachers of students with Conduct Disorder, Oppositional Defiant Disorder, mood disorders, or other emotional and behavioral disorders the strategies they need to help these kids overcome their struggles and find success in school. Based on the experiences of psychologists and educators working with kids with these disorders, this book provides help for children needing to control their emotional outbursts and strategies to teach kids to monitor, review, and change their behaviors. The chapters cover topics such as managing the classroom, dealing with struggles with homework, choosing from options such as time out or restraint to control behavior, helping kids develop self-advocacy strategies and independence, and planning services and accommodations for these disorders. The book also includes multiple tools for parents and teachers to reproduce and use immediately to help their students with emotional and behavioral problems overcome their challenges. We all
want our children to reach their fullest potential—to be smart and well adjusted, and to make a difference in the world. We wonder why, for some people, success seems to come so naturally. Could the secret be how they were parented? This book unveils how parenting helped shape some of the most fascinating people you will ever encounter, by doing things that almost any parent can do. You don’t have to be wealthy or influential to ensure your child reaches their greatest potential. What do you need is commitment—and the strategies outlined in this book. In The Formula: Unlocking the Secrets to Raising Highly Successful Children, Harvard economist Ronald Ferguson, named in a New York Times profile as the foremost expert on the US educational “achievement gap,” along with award-winning journalist Tatsha Robertson, reveal an intriguing blueprint for helping children from all types of backgrounds become accomplished adults. Modern parenting is defined by an unprecedented level of overprotectiveness: parents who rush to school and family partnerships for the benefit of all children. These recommendations to help educators, parents, and policymakers create partnerships to support children’s development. Lahey reminds us. Teachers don’t just teach reading, writing, and arithmetic. They teach responsibility, organization, manners, restraint, and foresight—important life skills children carry with them long after they leave the classroom. Providing a path toward solutions, Lahey lays out a blueprint with targeted advice for handling issues from all aspects of our modern world, ranging from the political to the personal. Most importantly, she sets forth a plan to help parents learn to step back and embrace their children’s failures. Hard-hitting yet warm and wise, The Gift of Failure is essential reading for parents, educators, and psychologists nationwide who want to help children succeed. At a time when people are living into their tenth decade, the longest longitudinal study of human development ever undertaken offers welcome news for old age: our lives evolve in our later years and often become more fulfilling. Among the surprising findings: people who do well in old age did not necessarily do so well in midlife, and vice versa. This book is for concerned, modern parents who recognize that the old ways of parent-child communication are insufficient for today’s children. By focusing on the needs of their children, parents can help them become the best they can be and help their children achieve in school and build lifelong intellectual confidence. Drawing on the latest science and her own wide-ranging experience, Dr. Waller explains why it’s important to pay attention to your first gut feeling that your child may need extra help and shows how to navigate testing, medication, and choosing a team to help your child. Most importantly, Yes! Your Child Can shows you how to use your child’s natural strengths and passions to build their academic, social, and personal confidence. Dr. Waller empowers parents to let their children follow their potential and become the best they can be. In this book, every parent of a child with learning differences should read. How can you really make a difference for your students? Teaching Tough Kids delivers a refreshing collection of realistic ideas to sustain the organisational and behavioural transformations of all students, particularly those who ‘do it tough’: who learn and react differently. Their lives are filled with emotional and behavioural issues; they find life tougher than most. Managing their emotion and behaviour presents educators with a spectacular challenge in schools today, and numbers are on the rise. Filled with inspirational case studies, this book focuses on building improved relationships, structures and behaviours, rather than seeing the student as ‘the problem’ that must be fixed. Highlighting the value of promoting positive connections with students of all ages, the author presents ways to incorporate inclusive ideas into everyday practice and construct pathways for students to become engaged in their learning and achieve success. This stimulating book shows teachers how to: build student connectedness to learning; set achievable goals for each individual child; support emotional stability; strengthen organisation patterns; address behavioural issues; improve homework planning; create friendships and deal with bullying. Teaching Tough Kids takes a particularly close focus on students identified with Learning Disability, Attention Deficit Disorder, Attention Deficit Hyperactivity Disorder, Oppositional Defiant Disorder and Asperger Syndrome. Another group of students with executive functioning difficulties are emerging in schools. These are the kids who have endured neglect or too much stress and uncertainty in their lives and as a result display classic symptoms of hyperactivity, hyper vigilance and impulsivity. Teaching Tough Kids will be of immense interest to teachers, student teachers, staff in Pupil Referral Units, SENCos and all those involved with Behaviour Support work. This book elucidates the amazing life journeys of academically successful migrant students. Offering vivid case studies of successful students, this book helps teachers, education students, and researchers understand the factors
that lead to success by minority language children. The authors
develop the lessons of student success stories into recommendations
for schools and for educational policy. Readers gain from this book the
stories of real students, the challenges they faced, and the means by
which students and schools may overcome language and cultural
barriers to educational success. School Success for Kids With ADHD
offers parents and teachers the support they need to ensure that
children with attention deficits build on their strengths, circumvent
their weaknesses, and achieve to their fullest potential. With the
growing number of children diagnosed with attention problems,
parents and teachers need practical advice for helping these children
succeed in school. Topics covered include recognizing the causes and
types of attention deficits and how they appear in the school context,.
Addressing questions and discussing the legal rights of children with
identified disabilities to a quality education. The book also examines
how educators, parents, and community members can work together
to support children with attention deficits. The authors also share the
message that children who are successful are not just those who
achieve to their fullest potential. The best-selling author,
and teacher, Jean M. Watson, provides a unique perspective on
child development and learning. Young children thrive and learn best when they have secure,
positive relationships with adults who are knowledgeable about how to
support their development and learning and are responsive to their
individual progress. Transforming the Workplace for Children Birth
Through Age 8 offers guidance on system changes to improve the
quality of professional practice, student performance, and elements
of professional learning systems and workforce development, and
research to continue to build the knowledge base in ways that will
directly advance and inform future actions. The recommendations
of this book provide an opportunity to improve the quality of the care
and the education that children receive, and ultimately improve outcomes
for children. Make sure your children grow dendrites! As children′s
first teachers, parents need to provide a firm foundation for lifelong
learning. In this new book, award-winning educator Marcia L. Tate
provides a research-based road map for raising respectful, responsible
children who achieve to their fullest potential. The best-selling author,
mother, and grandmother shares brain-compatible strategies for
guiding children toward personal, academic, and career success. Her
latest book provides parents and caregivers with a wealth of practical
tips and tools for: Creating a calm and brain-compatible home
environment Incorporating positive physical contact and verbal
communication Encouraging play that develops creativity and
imagination Strengthening children′s auditory, tactile, kinesthetic, and
visual modes of learning Preparing Children for Success in School and
Life shows parents how to help children′s brains "grow dendrites" in
everyday ways such as telling them stories, using music to enhance
memory, turning homework time into fun time, and allowing them
freedom to draw and write. From day one through graduation and
beyond, you and your family will reap the benefits of the author′s 30+
years of experience with thousands of children. Help your child master
the language of nonverbal communication. Do you know what
nonverbal language is? Even if you can′t define it, you speak it every
day through your postures, gestures, facial expressions, and tone of
voice, and you must constantly read these same signals from others. In
fact, nonverbal messages can carry up to 90% of the meaning of
human interaction and contribute significantly to social, academic,
and professional success. Yet even though we recognize the importance of
nonverbal communication, we have generally left the teaching of this
essential language to chance. Now parents and teachers can help
children develop nonverbal skills so that they will be able to
communicate more effectively and to interact with others more
successfully. In Teaching Your Child the Language of Social Success,
clinical psychologists Marshall Duke and Stephen Nowicki and
educator Elisabeth Martin describe and explain the methods and rules
of nonverbal communication. Together they have created an easy-to-
use guidebook that asks questions and diagrams, and shows you how to
assess a child′s strengths and weaknesses in this unsung realm, as well as
case studies, illustrations, and exercises for teaching or improving
nonverbal skills at home or in the classroom.
